May 5, 1939.

Mr. T. H. Humphrey,
State Engineer,
Salt Lake City, Utah

In response to your letter of May 4 in answer to Mr. Edward W. Bentley's letter to you with reference to the use of water on farm land in Parowan, he asked me to write you advising that he will be in Parowan until Tuesday evening. You state that probably you will have a man in Iron County on May 8 and Mr. Bentley would like very much to see him while he is down there. The land that the water is used on is known as the Horace Davenport land and Ed. Bentley land and is located about 1 3/4 miles west of Parowan on Highway 91.

If you cared to drop a line to Mr. Bentley at Parowan tomorrow, he would receive it on Monday and would be glad to meet your representative wherever convenient.

Yours very truly,

Mrs. Dorothy M. Bentley
